

# EMR Implementation Made Easy

WITH FASTAFF'S COMPREHENSIVE  
NURSING SOLUTIONS

## FASTAFF EFFICIENTLY DEPLOYS LARGE GROUPS OF NURSES WITHIN 10 DAYS

When a major Washington hospital needed over 100 nurses for an upcoming electronic medical records (EMR) upgrade, they chose Fastaff for their financial guarantee of providing the nurses quickly.

Fastaff, unlike regular travel agencies, is known for efficiently deploying large groups of nurses within 10 days and managing the entire project in-house without depending on secondary agencies. With a vast database of skilled nurses in high-acuity fields, they can instantly mobilize nurses with active licenses and experience to start immediately.

Their comprehensive services cover recruitment, credentialing, on-site management, scheduling and travel coordination, plus daily communication with hospital management. This single-agency approach for various nursing specialties made the EMR implementation much easier for the hospital.

## Executive Summary

- Facility needed nurses in multiple specialties for upcoming EMR project.
- Fastaff delivered 115 nurses with a financial guarantee.
- Fastaff managed the entire project.

## EMR IMPLEMENTATION MADE EASY WITH FASTAFF'S COMPREHENSIVE NURSING SOLUTIONS

### FASTAFF PROVIDES OPERATIONAL FLEXIBILITY THROUGH SHORT-TERM ASSIGNMENTS

In addition to the unique financial guarantee, Fastaff provides operational flexibility through short-term assignments. Since the EMR project was scheduled for two weeks, the facility was able to mitigate costs by only contracting for nurses during the duration of the upgrade, avoiding the unnecessary expense of traditional 13-week contract terms required by other staffing agencies.

By expertly handling all agency management and travel logistics for nurses, Fastaff allowed the hospital to concentrate solely on in-house operations during the crucial EMR upgrade. Their guaranteed delivery, flexible assignments, and streamlined management made partnering with Fastaff a the right choice for this important project. Ultimately, Fastaff nurses provided outstanding patient care, granting in-house staff ample time to train and adapt throughout the entire process.

### Facility Summary

- Award-winning Seattle-area medical center
- 1,571 beds
- Cancer Institute, Heart & Vascular Institute, Organ Transplant, Orthopedic Institute
